

What do I need to do to move out of Berkeley with my voucher?

If you have been a participant in the Section 8 Program for more than one year, you may exercise portability at any time provided you are not subject to program termination and you do not have any outstanding debts to the Housing Authority.

Families receiving a voucher for the first time may exercise portability immediately if you were a resident at the time of application; if you were a non-resident at the time of application, you must use the voucher in Berkeley for the first 12 months before qualifying for portability.

Note: You should check with the receiving Housing Authority to see if they are accepting incoming portable clients.
