

Does the Housing Authority help families find a unit with an owner willing to take Section 8 assistance?

We provide a free unit listing service for owners and tenants. The owner of every unit listed has indicated an interest in renting to someone with Section 8 assistance. The list is updated every Thursday. Copies of the [unit listing](#) are available on the first floor of the building during regular building hours) or on our website. We also have [brochures of the Section 8 Program](#) that can be shared with prospective landlords.
