

My utility allowance is not high enough to cover my PG&E bill.

The Housing Authority has a [Utility Allowance Schedule](#) that applies to every assisted family, based on the numbers of bedrooms in the unit. If you use a lot of energy, the allowance may not be enough to cover the your bill. Work with your landlord to make sure the unit is well-insulated and the appliances are energy efficient, then do your part to conserve.

All participants are encouraged to sign-up for PGE's Care Program. Applications are available online or at the Housing Authority Office in the document center located on the first floor of the building during building business hours. Additional assistance may be obtained from the State of California's [Weatherization Assistance Program \(ca.gov\)](#).
