

After I sign the RTA and the family submits it to the Housing Authority, how long before an inspection is scheduled?

Answer: The Housing Authority's goal is to contact the property owner within three business days of the RTA's submission to our office. An inspection is then scheduled at the property owner's convenience. Before Housing Authority staff contacts the owner, the family's share of rent is calculated and the preliminary screening for rent comparability is completed for discussion with the owner.
